Portals and Corridors: A Guide to Hyperspace Travel Monica Szu-Whitney, Gary Whitney

For an era flooded with icons of almond-eyed aliens, stock angels, and computer-generated Martians, as well as the disappointingly pious sermons of Pleadians and Sirians, Monica Szu-Whitney and Gary Whitney have opened a window into the actual vastness of the universe. Through the admittedly imperfect tools of our minds and 'imaginality' they have glimpsed the inhabitants of that domain known as hyperspace, subspace, or the astral realm; and they have presented us with their remarkable portraits and words. The beings in this book live far from us in actual time-space and are hard to see, but their destinies and ours are intertwined, and they bear critical messages for all inhabitants of the Earth.
