The Archaeology Of The Donner Party (Shepperson Series in History Humanities) Donald L Hardesty
The tragic saga of the Donner Party has inspired both legend and scholarship ever since the survivors were rescued from the High Sierra snows in the spring of 1847. When archaeologist Donald L. Hardesty and four colleagues - a historian and three other archaeologists - turned their collective attention to the ordeal of the Donner Party, the result was an original and sometimes surprising new study of this pioneer group and their place in the history of overland migration. Now available for the first time in paperback, "The Archaeology of the Donner Party" combines the fruits of meticulous investigation of the Sierra Nevada sites with scientific analysis of artifacts discovered there and interpretation of the documents of the party and the memoirs of survivors. Through this interdisciplinary approach, Hardesty and his colleagues offer new insight into the ordeal of these ill-fated emigrants and demonstrate the vital role that archaeology can play in illuminating and expanding our understanding of historical events.
