### **Here Is A Preview Of What You'll Learn...**

It is uncanny how we all know how it feels like to be cheated but when we are pushed to enumerate what acts constitute 'cheating' in a marriage or in a committed relationship, no two women would have the same answers.

For instance, some women feel cheated when their husband or partner habitually 'checks' out or ogles women at the mall. They feel that their husband or spouse should have eyes only for them and so when their husband's or partner's eyes stray and get visual stimulation from some other woman's vital statistics, they feel threatened and insecure. To these women, cheating is subjective—that is, whatever their husband or partner does, if it makes them feel like they are on the losing end of a comparison with another woman, their position in the relationship is threatened and they feel that they are being cheated on.

Other women are more liberal in the sense that they don't mind if their husbands or partners look, as long as they do not call, text or flirt with the woman, or in any way act upon the visual stimulation, then that is not yet cheating. They reason that the man cannot help it if he has eyes.

Some women are still more liberal – they don't mind that their husband cultivates friendships with other women as long as no emotional or sexual relationships are created. Other women don't care if the man in their life beds other women as long as the rent or mortgage is paid, the kids don't go hungry, the bills are paid and she doesn't get a sexually transmissible disease then it isn't really cheating.

It is very plain to see that we can only answer the question of how to deal with cheating if we first consider what 'cheating' is – after all, how can we deal with cheating if we aren't even sure if what the husband or partner is doing can actually be called 'cheating'? How can we deal with cheating if no cheating has gone on? If we only suspect that he may be cheating? Or we are afraid that he may be cheating but we have no way of knowing if he is already cheating? Thus, it is important to define what we mean exactly when we say 'cheating'.
