Shifting Horizons: Women's Landscape Photography Now (Ellipsis)

Throughout the history of photography the genre of landscape has been dominated by male perspectives. *Shifting Horizons* makes us rethink our perceptions of the inner and outer landscapes we experience. Ten women photographers reinterpret the notion of "landscape." Using techniques ranging from historical non-silver processes to new digital imaging technologies, they are concerned with borders: between land and sea, day and night, inside and outside, public and private, absence and presence, space and enclosure, image and words; past, present and future.
