Are you looking for a simple investment strategy that fits your lifestyle? Do you want to become an independent investor? Are you worried about your retirement, but don't want to deal with the complexity of investing? Fed up with 0% interest? Tired of the same sales pitches you hear from bankers and investment advisers? You're in the right place. Who is this book for? This book is for all people who are unsatisfied with their own work intensive and at times very complex investment strategies. It's for individual investors and entrepreneurs who have day jobs and businesses to take care of, and don't want to spend hours in front of computer screens chasing other people's hot investment ideas. It is also for young professionals who have recently started earning money and are willing to break with the norms of today's outdated investor culture. This book is NOT for complete beginners. To understand the key terminology used in this book and understand the core concept of investing, I would recommend reading a primer on investing. After reading "The 80/20 Investor" you will know: + How to apply the 80/20 Principle to financial freedom and the three pillars of 80/20 Investing. + How to reduce your investment workload, by focusing only on the most valuable investment opportunities and achieve better performance than professionals. + Learn how to improve your investment decision-making by using the 80/20 principle and effective "mental models." + Find the best investment opportunities by obeying the "investment seasons" and using the "magic categories" to find no-brainer opportunities. And much, much more... The 80/20 Investor, harnessing the power of the 80/20 principle, simplifies investing. In no time, you will learn the basics of investing, how to finance your investments, where to look for "no-brainer" opportunities, understand real investment risk and how to reduce it.
