COMMERCIAL PILOT Practical Test Standards for ROTORCRAFT, HELICOPTER, GYROPLANE

Take a look at the sample for this book and for details about downloading 500 free US military manuals as a thank you for taking the time to look at our book.

The Flight Standards Service of the Federal Aviation Administration (FAA) has developed this practical test standard (PTS) to be used by examiners when conducting commercial pilot—rotorcraft practical tests. Instructors are expected to use this PTS when preparing applicants for practical tests. Applicants should be familiar with this PTS and refer to these standards during their training.

The FAA gratefully acknowledges the valuable assistance provided by many individuals, companies, and organizations throughout the aviation community who have contributed their time and talent in assisting with the revision of this practical test standard.
