## Gender Identity and Discourse Analysis (Discourse Approaches to Politics, Society and Culture)

Gender and discourse interface in many more epistemological sites than can be represented in one collection. *Gender Identity and Discourse Analysis* therefore focuses on a principled diversity of key sites within four broad areas: the media, sexuality, education and parenthood. The different chapters together illustrate how taking a discourse perspective facilitates understanding of the complex and subtle ways in which gender is represented, constructed and contested through language.

The book engages critically with long-running and on-going debates, but also reflects and develops current understandings of gender, identity and discourse, particularly the shift from 'gender differences' to the discursive shaping of gender. *Gender Identity and Discourse Analysis* thus offers not only insights and methodologies of new empirical studies but also careful theorisations, in particular of *discourse, text, identity* and *gender*.

The collection is a valuable resource for researchers, postgraduates and advanced undergraduates working in the area of gender and discourse.
