The Neurotourist: Postcards from the Edge of Brain Science Lone Frank

Discover the true heart of humanity: the brain Your brain shapes your world, but you can also shape your brain. From the God helmet to the No Lie MRI, award-winning journalist Lone Frank embarks on an incredible adventure to the frontiers of neuroscience, revealing how today's top scientists are reinventing human nature, morality, happiness, health, and reality itself. Interlacing bizarre experiments, cutting-edge research, and irreverent interviews, *The Neurotourist* is an unforgettable tour of the mind-bending revolution underway in the new age of the brain. A critically-acclaimed journalist, science writer, and TV presenter, Lone Frank also holds a PhD in neurobiology and has worked as a research scientist in Denmark and the US. Apart from a particularly 'cute' corpus callosum she has an expert's word that her brain is quite unremarkable. "[A] fascinating exploration of the most intriguing brain experiments so far this century." *The New Scientist*

From reader reviews:

John Mullen:

Reading a book tends to be new life style in this particular era globalization. With examining you can get a lot of information which will give you benefit in your life. Along with book everyone in this world can share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire their reader with their story as well as their experience. Not only the storyline that share in the textbooks. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors these days always try to improve their skill in writing, they also doing some analysis before they write for their book. One of them is this The Neurotourist: Postcards from the Edge of Brain Science.

Troy Riley:

Your reading 6th sense will not betray you, why because this The Neurotourist: Postcards from the Edge of Brain Science publication written by well-known writer who really knows well how to make book which can be understand by anyone who all read the book. Written with good manner for you, dripping every ideas and writing skill only for eliminate your current hunger then you still skepticism The Neurotourist: Postcards from the Edge of Brain Science as good book but not only by the cover but also with the content. This is one reserve that can break don't evaluate book by its protect, so do you still needing another sixth sense to pick this particular!? Oh come on your examining sixth sense already told you so why you have to listening to one more sixth sense.

Jessie Henricks:

What is your hobby? Have you heard that question when you got learners? We believe that that problem was given by teacher to the students. Many kinds of hobby, Everyone has different hobby. And you also know that little person like reading or as reading through become their hobby. You need to understand that reading is very important and book as to be the thing. Book is important thing to add you knowledge, except your own teacher or lecturer. You will find good news or update in relation to something by book. Many kinds of books that can you go onto be your object. One of them is this The Neurotourist: Postcards from the Edge of Brain Science.

Thomas Moss:

Reading a book make you to get more knowledge from that. You can take knowledge and information from a book. Book is prepared or printed or illustrated from each source that filled update of news. With this modern era like right now, many ways to get information are available for a person. From media social like newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Do you want to spend your spare time to spread out your book? Or just trying to find the The Neurotourist: Postcards from the Edge of Brain Science when you needed it?
