Dead Worlds - The Spirit Walker Sagas

Book I of III: The Truth Foretold – Whilst the dragon still sleeps

The year is twenty-seven twenty-three. If one was foolishly measuring time using the Earth Standard Gregorian calendar, that is.

In the past seven hundred years, humanity has advanced significantly, they've mastered the art of terraforming dead worlds, and they've mastered interstellar teleportation too.

But never had they come across any others, any others like themselves.

The UN Spirit of Liberty, has been charting deep space for half a year at warp speed, and they have found what they set out to seek. A star similar to their own sun, with a half dozen major planets in orbit. There was one planet in particular, situated in the infamous goldilocks zone, satellite telescopes had foreseen water and oxygen. But what they find on that planet is more than they ever bargained for.

The realm of Sourì, that particular planet, has had intelligent life, humanoids, working its fields for some time, enough time for civilizations to form, as well as the secrets of industrialization and steam innovation to be revealed, with time, and more, only to begin to leave its stain on the realm.

The Spirit walker Sagas is the collective stories of both the invading humans and the natives of the realm.

Those who found themselves in troubled circumstances, all experiencing dreams or hallucinations, produced by the divine goddess Sourì; and her pantheon of mischievous celestial spirits.

These dreams and hallucinations lead to great shifts in the cosmic energy, at a time of great instability, and the strings have been cast for the battle of the realms when it is revealed that the realm of Sourì was visited long ago by a precursor race known as the Skylords, or The Unmentionables. Sourì vanquished The Unmentionables from her realm, after they exploited her children, and glassed Ancient Avolia off the map – a once thriving civilization.

The Unmentionables have been prophesized to return. That is all anybody knows.
