"International Peacekeeping" is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues, but is not limited to these issues. It is recognized that in today's world there is a wealth of information available from the internet and through other sources. It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles, a chronicle, primary documents, and a bibliography. The topics include inter alia peacekeeping, peace, war, conflict resolution, diplomacy, international law, international security, humanitarian relief, humanitarian law, and terrorism. The Yearbook is of scholarly quality but is not narrowly theoretical. It provides the interested public - diplomats, civil servants, politicians, the military, academics, journalists, NGO employees, and serious citizens - with a document of record, comment, and a starting point for further research on peacekeeping and related topics. This is achieved not only by the provision of 'basic documents' (on CD ROM), such as Security Council Resolutions and Reports of the UN Secretary- General, but also by expert commentaries on world events. Peacekeeping is treated in a pragmatic light, seen as a form of international military cooperation for the preservation or restoration of international peace and security. Attention is focused not only on UN peacekeeping operations, but other missions as well. This Yearbook is the continuation of the journal "International Peacekeeping".
