Magical Alphabets: The Secrets and Significance of Ancient Scripts -- Including Runes, Greek, Ogham, Hebrew and Alchemical Alphabets Nigel Pennick

Using the premise that languages and the alphabets that comprise them are metaphorical microcosms of our world, Nigel Pennick demonstrates how various alphabets function as a metaphysical description of reality. Magical alphabets actually enable seekers to experience a transformative process. This inner transformation is one of the main objectives of all esoteric traditions, and it can be accomplished by using any of the alphabet systems described in this book. Pennick's exciting exploration of Western alphabetical systems includes information about the origins of Hebrew and Greek alphabets, Celtic oghams, and medieval and Renaissance magical and alchemical alphabets. His examination uncovers evidence of the widespread use of runes throughout northern and central Europe, as well as the use of letter systems for operative and ceremonial magic. From grid ciphers to numerology to modern uses, this book provides an in-depth study of the magic present in a tool we use every day-- the alphabet.
