Glebe, an unlikely hero, takes on everything that irks that average guy as he tweets his way to becoming the voice of the people in a witty tale so unlikely, that it is totally plausible, definitely relevant, and very funny. Did you ever feel like you didn't count with big business or the government? Glebe did--and big business and the government have met their match. That worldwide consumer boycott?- that was Glebe. Tweet is a funny romp through the world we live in: the powerless consumer, over-saturated advertising, incessant marketing and big business that has suddenly become hard of hearing even though your call is very important to them. Glebe just wanted to make a difference and he did what you would have done if you had thought of it and were very passionate and very quirky. One guy can't change the world- good thing that Glebe didn't know that.
