Master of Dragons

A divided Parliament of Dragons where division and self preservation incite war and threaten the order of the ages.

A hidden stronghold where insidious and outlaw dragons hatch a race bent on the subjugation of all mankind.

The ancient city of Seth and its mystical order of warrior priestesses who have the power to fight back against the attacks of dragons.

The twins Marcus and Ven must unlock the secrets of these places and their own powers and overcome their own personal differences as they prepare to clash in a war that may pit brother against brother and dragon against dragon to determine dominion of the world and the survival of the fittest.

Master of Dragons is the epic conclusion of Margaret Weis's triumphant Dragonvarld trilogy, an epic of politics, war, and the delicate balance of the ways of dragons and men.
